12. **DETAILED REPORT OF THE PROGRAM:**

To understand students/ children with special needs, we need the binding and help of their parents, in most cases. As this forum has students from different departments and the teachers in this forum may not be teaching these students, special initiatives like these become necessary to build their trust in us and to help them approach us. This trust in others, beyond parents, is THE ROOT for their success and survival in life. Many times, this needs help from parents.

Ms. Reena, a special educator, and mother of a special child addressed the parents especially the mothers, on why parents should take care of their Physical health, Emotional health, and Social health, so they do not get overwhelmed in the process of supporting their children. The Anecdotes from her life, and her students' life moved everyone. It made every parent wake up to take care of themselves.

Next, she addressed the students to hone their skills, and not worry much about their challenges. Especially having come up to the graduate or post-graduate level, most of them have awareness and acceptance. Next is to jump into action she made it a point that these students should keep a note of their strengths and skills, so they can go in that direction.

The next session was by Dr. Vijayalakshmi, Head of the Data Science department of our college. And a mother of a special child who has been selected to represent our country in the Olympics in Swimming.

She guided all the parents on getting a National Disability card, UDID, and Divyangjan Railway concession card. She helped them understand the importance of applying for these cards and the renewal of these cards from time to time. Parents had so many queries, that they could exchange with other parents and teachers. This was a very nice interaction session that gave us so much satisfaction.

Our Principal addressed the parents and encouraged them to walk into his office anytime for solutions and come up with suggestions. With his support, we plan sports and games for our cell students and others.

Our college secretary joined us, and we could see he was moved to know about the talents of our students. He has assured us all of our support and wants us to plan different programs that can help our institution be more inclusive and sensitive to needs, and be a true Vaishnav as Narasing Mehta envisioned in his Vaishnav Janato Tene Kahiye song.

Dr. Vijayalakshmi, Head of the Data Science Department, Dr. Vijayalakshmi, Department of Commerce (A& F) and Dr. V. Sangeetha, Department of Physics coordinated today's program with students, parents, and volunteers.

Work done by volunteers in calling the students, reminding them, helping them physically to reach the venue, helping the parents, hospitality, creating an invitation, running errands, taking photos/videos, and helping the students get back. Our forum appreciates empathy, and we are sure that someday you will be an excellent human being.

13. **OUTCOME OF THE EVENT:** The session has given motivation to the parents to bring their child in a better life. Also the session helped the parents to understand the procedure for availing the opportunities given by the Government.
