resource person Ms. Lavanya Gajarajan, guided the students about the various ways women belong in all places where decisions are being made. It shouldn't be that women are the exception in a lighter and hilarious way. That's what twenty-first century feminism is about: the idea that when everybody is equal, we are all freer. Gender equality not only liberates women but also men from prescribed gender stereotypes. An interactive session also took place to clear the various queries and doubts raised by the students. It was followed by the formation of Monetrix (DDGDVC ECON ASSOCIATION) 2022 – 2023. The chief guest felicitated the office bearers during the "INVESTITURE CEREMONY". Vote of Thanks was delivered by Karthikraj G of III BA Economics.

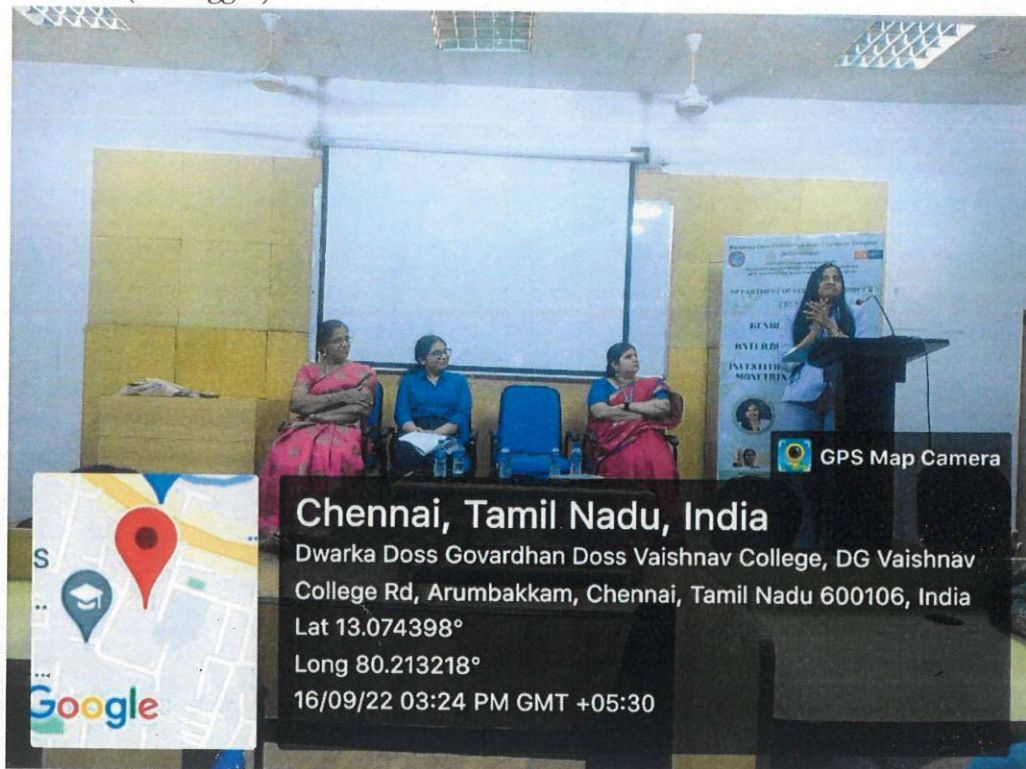

10. Outcome of the Program/ Event:

- a) Gender equality makes good economic sense.
- b) We must understand women's needs.
- c) Men should be a part of the push as much as women.

#### **DETAILED REPORT OF THE EVENT:**

The session on Diversity, inclusion and equity in education commenced at 11:30 AM with a ‘Thamizh Thaaai vazhthu’. The master of ceremony was Ms. Samyugdha of 1<sup>st</sup> MSW, the gathering was welcomed by Mr. Suniel of 1<sup>st</sup> MSW and the guest introduction was given by Ms. Maheshwari of 1<sup>st</sup> MSW. The session started with an introduction of the guest herself that she had completed her MBA (HR) and currently working in the NGO - AID India. There were two questions for the students: ‘who were the students from rural areas?’ and ‘why did all of you choose MSW?’ There were around five to six responses for the first question and this question was asked as the session was related to rural education. For the next question, Reshma Nancy and Nalini replied that there was practical exposure in this field and lots of opportunities to learn about and with people, making this course unique. The next question for the students was to make this session more interactive: ‘what were the words that come to their mind when they hear the term “school education?”’ There were lots of replies simultaneously from the students, and a few words were; hard work, teachers, exams, report card, rote learning, hours and hours of study, pass and fail, and so on.

Then directly the guest lecturer moved to the topic and stated that enrolment of students into education is not the current issue, as more than 99% of the students are enrolled in schools in Tamil Nadu but the quality of education and learning is the issue. There were statistics provided that;

- Only 40% of the students in 5<sup>th</sup> grade know to read Tamil, which could be read by 2nd-grade students
- Only 25% of the students in 5<sup>th</sup> grade know to read English, which could be read by 2nd-grade students
- Only 25% of the students in 5<sup>th</sup> grade know to solve simple mathematical problems, which could be solved by 2nd-grade students

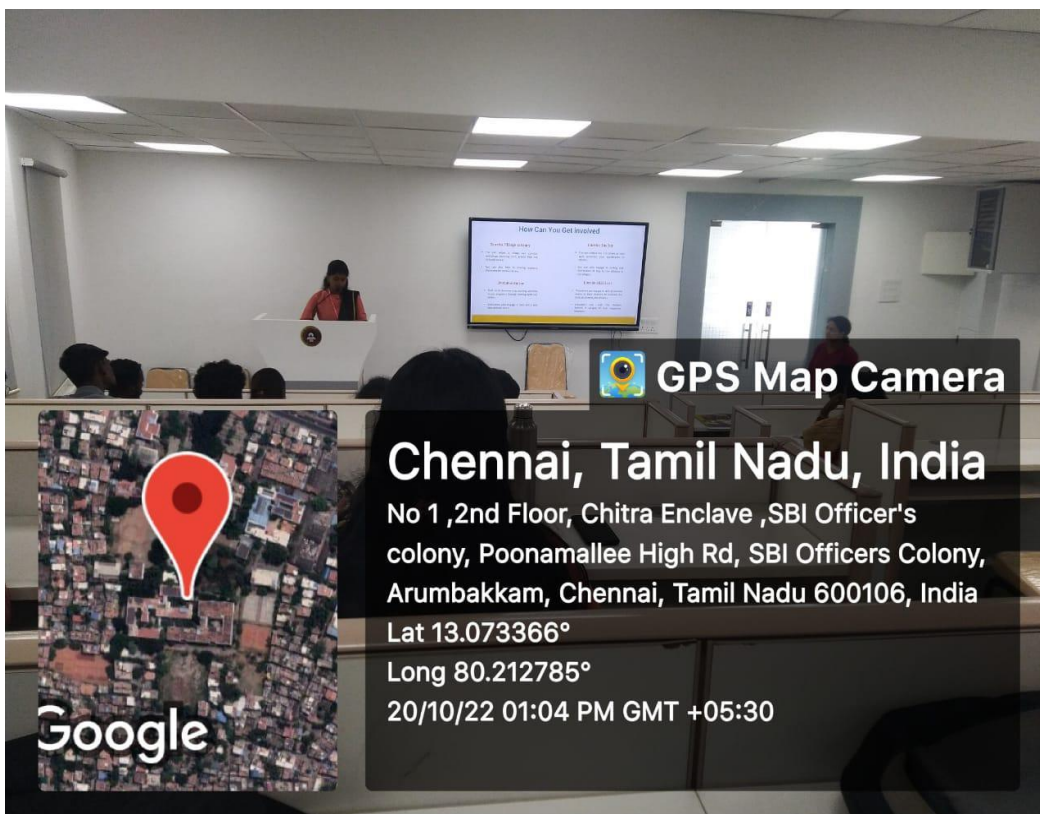

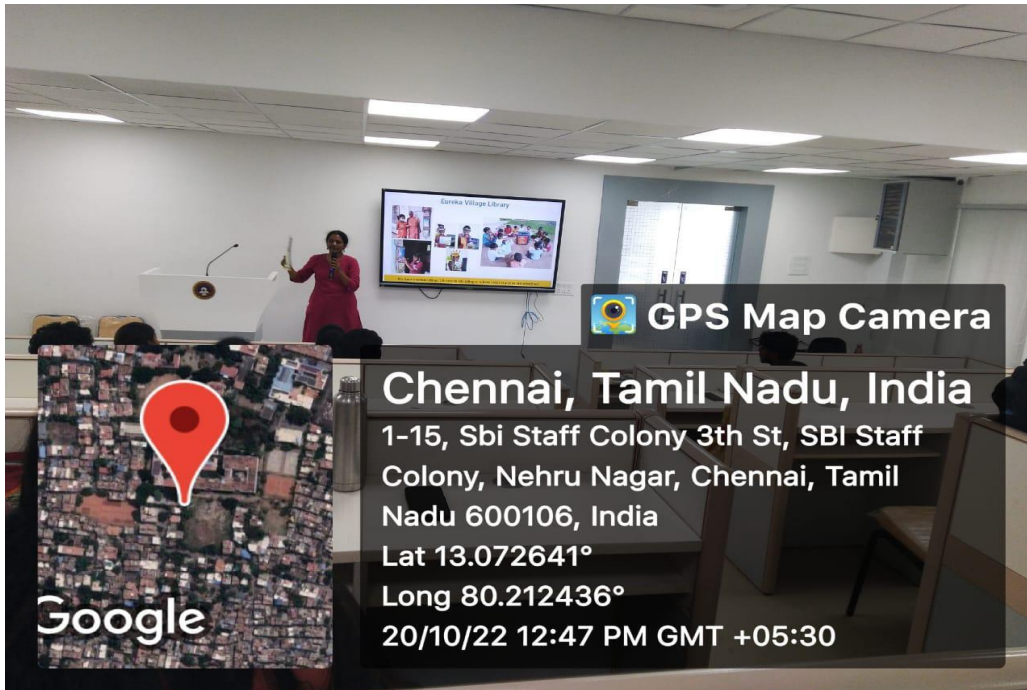

It was also informed that few students in school by – heart the paragraph through images in that paragraph so that they could read that paragraph; due to this, the students are unable to read any sentence in the invitation or new paper or any other source. The quality of private schools in rural areas is found to be similar to that of government schools in rural areas due to which the complete education of the students is affected. Communication also gets affected because of this. The guest lecturer also mentioned that to practice the Tamil language there is an environment but to practice the English language there is a lack of an environment and in rural areas the situation is even worse. The lecturer added that parents are also a reason for the lack of quality education, especially in government schools. In any private school, if the child is not studying well, the parents would check with their teachers but in any government school, if the child is not studying well, then the parents would reply that it is the fault of the child and he or she may have no interest to study. The parents of government school children have no awareness that if the child is not studying properly the teachers can be questioned.

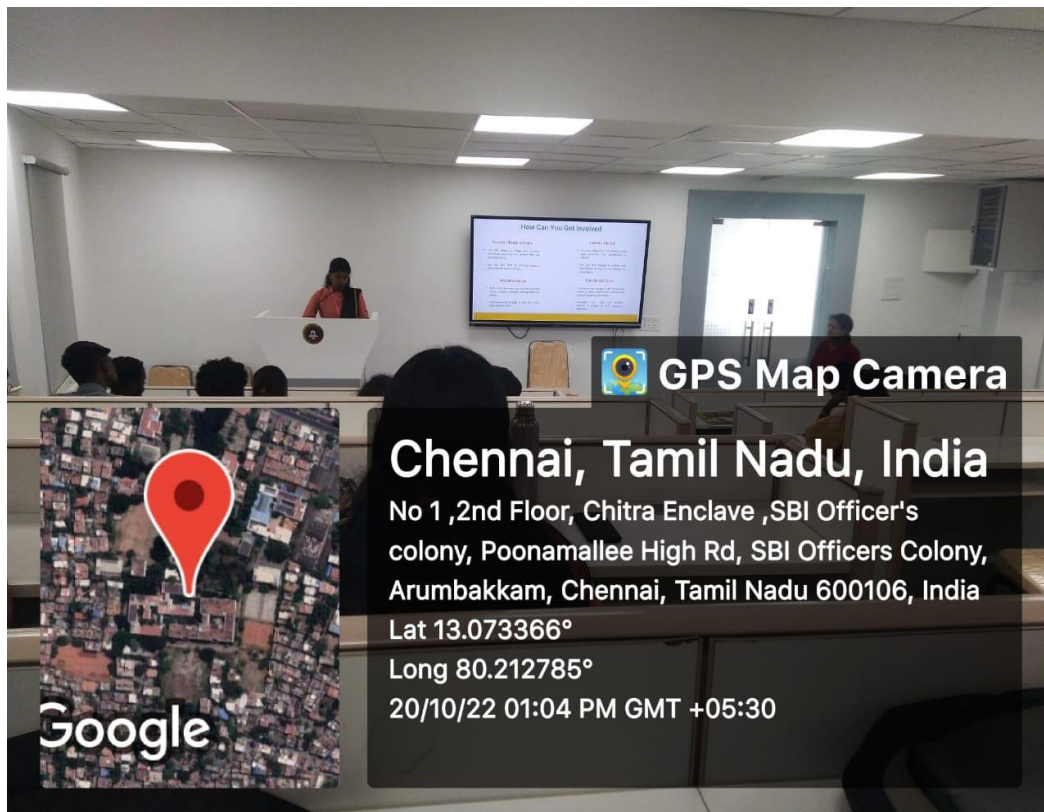

The guest lecturer then touched upon the work that is done by their team. They visit villages and handle after-school sessions wherein the students will be taught by providing individual care so that their need is identified and fulfilled individually. In few villages, the maximum education that they pursue is 7<sup>th</sup> or 8<sup>th</sup> grade, and entering graduation is one of the biggest challenges. Bairavar colony is a village, inhabited the Irular community and this organization works there, children in that community play with live rats as there are no resources to play with. Apart from playing, they do not have any resources for their daily living. The funds are provided by the corporates as a part of CSR activity and they also accept individual funds from

donors. This organization also builds houses for the needy apart from providing education to the students.

The session came to an end by proposing the vote of thanks by Naveen Thomas. G of 1<sup>st</sup> MSW and then followed by National Anthem.

#### **OUTCOME OF THE EVENT:**

- The students learned the importance of quality education and the reasons the for lack of quality education.
- The students had an awareness of rural education and the statistics pertaining to rural education.
