DETAILED REPORT:

The PG and Research Department of Commerce organized an Environmental studies Field Trip to Panaiyur. The day began with students departing from the college to the Faunas Park and reached around 10:00 am. Variety of flora and fauna were present which not only enriched the knowledge about environment but also instilled empathy in the minds of the students towards the other living organisms. Students were allowed to feed the ostrich and other birds present. Birds were seeming to be more familiar with human presence and the students also gained knowledge about different birds. Students were also allowed to visit aquarium inside the park to gain knowledge about variety of fishes.

Later in the afternoon we reached Miyawaki Urban forestry where variety of trees were grown in the urban space. The officials explained about the importance of Miyawaki Forests and its contribution to nurturing environment especially in urban and metropolitan cities. Volunteers are exposed to the plantation technique and are also taught how to plant a sapling during the event. Lunch was provided to the students in the nearby park area.

Then the students were taken to Panaiyur beach in the evening where the students have witnessed the beauty of marine sceneries and also gained the knowledge of various marine species in the seashore ranging from small fishes to crabs and other valuables like pearl shells. The locals around the beach expressed the concern of marine and seashore pollution. The students ensured that they threw their wastes in the appropriate garbage bins and vowed to keep such ecosystems clean.

In a nutshell, the students were thrilled to have the chance to observe the different natural ecosystems close, gaining insights into their significance and the creatures in such habitats.

Overview:

- To teach the students about various species across different ecosystems.
- To highlight the importance of inter dependence of animals and humans.
- To provide insights about forestry and marine ecosystem.

Benefit in time of learning:

- Knowledge about various exotic birds and fauna
- Insights about plantation techniques and significance of trees in urban areas
- Impact of marine pollution and measures to preserve marine ecosystem
