**No. of student participants: 75**

### **Detailed report of the program:**

The PG and Research Department of Microbiology, D.G. Vaishnav College, conducted an Alumni meet on 15<sup>th</sup> August, 2019. The program began on an auspicious note with lighting of kuthuvilakku by the Head of the Department, Dr. P.Vidya, followed by a welcome address and an AV was played about the journey and development of Microbiology Department.

The session was started by 10.00 AM. The aim of the program was to interact with the alumni's and to share their experience in the college. A few of them shared their current employment and how this subject helpful in their career. Most of the alumni are employed in pharmaceutical and food industries in higher positions. They shared old memories of this college with the current students.

Alumni have interacted with their juniors and current students of the department. Their views and experience in the field motivated the younger buds to blossom. They encouraged students to take up entrepreneurship in Microbiology and discussed about various exams like CSIR, NET, SLET for research and academia. The session was ended up with the lunch provided by the department at 2pm.

**Outcome of the program:** Alumni's have motivated the younger ones to come up in their life. They provided their experience to make a career path for the future microbiologist.
