Event Report (in words)- 2500 characters

The PG Department of Biotechnology conducted an alumni meet on 02.03.2024 for the alumni students of the department. The alumni were welcomed by the Department Head, faculty members and the student team. This was followed by an interactive session where the alumni shared their workplace and industrial experience with the students.

They also spoke about the various job profiles related to their current work and the skills needed to get placed. They interacted with the students on the importance of having friends

and still maintaining a balance between studies, work and social life. The alumni students also welcomed doubts from students regarding career, higher studies and placements. They also motivated the students to approach them for placement related support and guidance.

Alumni who were unable to attend the meet joined online via Google Meet and interacted with everyone. They expressed their happiness on being able to join online. The session ended with congratulating the current II M.Sc students who got placed and activities conducted by the department students for the alumni. This was followed by lunch and circulation of feedback forms.
