MESSAGES

Voting is not just a right. It's a privilege and a responsibility that empowers us to contribute to the collective vision of a better society. Every vote counts, and every voter is an essential part of the democratic fabric that binds us together. As we commemorate this day, let's reflect on the significance and the impact our choices can have on the direction of our community and country. By participating in the democratic process, you have the opportunity to voice your opinions, advocate for change and elect lead us who represent your values and aspirations.

Dr. Ashok Kumar Mundhra
Secretary

On this Voters' Day, let us celebrate the essence of democracy and the power we hold as responsible citizens. Your vote is your voice, shaping the future of our nation. I encourage every eligible member of our college family to register and actively participate in the electoral process. Let's uphold the democratic values that define our society. Thank you for your invaluable contribution to the dynamic mosaic of our democracy.

Dr. S. Santhosh Baboo
Principal

Make your insider voice audible by casting your vote, for the purpose of protection, construction or reorganization of our future.

Ms. D. Senthamarai
Head of the Department

EDITORS DESK

Voting is a crucial democratic process that enables citizens to express their opinions and choose representatives on various issues. It is a cornerstone of democratic societies, allowing individuals to have a say in the decision-making processes of their government.

Key components of voting includes the purpose of voting, democratic principles, types of elections, voting systems, voter registration, voting procedure, election campaigns, voter turnout, electoral integrity, suffrage, civic responsibility and challenges & reforms.

Voting is a mechanism for citizens to express their opinions on politics, laws and other societal issues. Democratic principles emphasize equality in representation and different voting systems can influence the representation of political parties and the effectiveness of the electoral process. Voting is also a civic duty, emphasizing individual responsibility in shaping the future of a community or nation.

In conclusion, voting is a multifaceted process deeply rooted in democratic societies, with challenges such as voter suppression, complaints, and misinformation affecting the integrity of elections.

FACULTY ACHIEVEMENTS

- Participated in the one day Webinar on “PERFECTING THE ART OF WRITING RESEACH PAPER” on September 22, 2023.
- Participated in the Teachers Conference on “EMPOWERING EDUCATORS” on September 23,2023.
- Participated in the one day Workshop on “EFFECTIVE WAYS OF WRITING RESEARCH ARTICLES” organised by School of Social Science and languages and School of Computer Science and Engineering on November 24,2023 at Vellore Institute of Technology , Chennai.

Ms. D. Senthamarai
Head of the Department

- Completed five days online course on “GOODS AND SERVICE TAX” from July 3,2023 to July 7,2023 organised by Emperor Research Foundation.
- Participated in the one day Workshop on “EFFECTIVE WAYS OF WRITING RESEARCH ARTICLES” organised by School of Social Science and Languages and school of computer science and engineering on November 24,2023 at Vellore Institute of Technology , Chennai.
- Acted as a Resource Person at SDNB Vaishnav College titled Deductions from Gross Total Income organized by Department of Commerce (Computer Applications) on 30th November 2023.
- Acted as a Resource Person at SDNB Vaishnav College titled Digitalization of Taxation and Accounting organized by Internal Quality Assurance Cell on 14th December 2023.

Mr. S. Sairam
Editorial Director

- Presented a Research Paper on International Conference regarding”ANALYSIS OF FOREIGN DIRECT INVESTMENT IN CHIP (SEMICONDUCTOR) MANUFACTURING PLANTS IN INDIA”.

Mr. P. Perumal
Assisstant Professor

THE MAGIC OF ONE VOTE

India is the largest democratic country in this Universe. The eligible voters of the nation must put the duty to cast vote as most priority than others. Especially in Urban, we always keep the democracy in the next door. The Election Commission of India taking numerous measures to increase the vote ratio by running awareness campaign, encouraging postal voting for notified circumstances, special arrangements for the people of special needs etc.,. In Indian history, there are various moments in which, we discern the value of ONE Vote. Here are few!

Corporation Election:

In 2015 Brihamumbai Municipal Corporation (BMC) election, the candidate of Shiv Sena Party and Bharatiya Janata Party secured same number of votes. The ONE vote casted in favour of either of the candidate wouldn't lead to win by lottery technique. [Resembled in World Cup Finals 2019].

In the very year, Mohali Municipal Corporation election, the Congress Party succeeded election against Akhail Dal in a margin of ONE vote.

Assembly Election:

In 2008 assembly election of Rajasthan, the then state chief C.P. Joshi (of Congress Party) lost to Kalyan Singh Chouhan (of Bharatiya Janata Party) by ONE vote. Similarly, in Santhemarahalli Constituency of Karnataka (2004), A.R. Krishnamurthy (of Janata Dal - Secular) lost to Dhruvanarayan (of Congress Party) by ONE vote.

The various news reports highlighted that the losers stifled their drivers to cast their vote.

General Election:

Atal Bihari Vajpayee's led NDA fall in 1999 by ONE vote during confidence motion brought by the opposition.

There are very many circumstances in which the victory decided based on few votes.

Mr.S.Sairam
Editorial Director

THE NAVIGATING DEMOCRATIC CHALLENGES: A GLOBAL PERSPECTIVE ON DEMOCRATIC GOVERNANCE

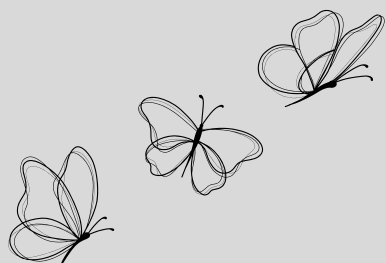

INTRODUCTION:

In the ever-evolving landscape of global governance, the embrace of democratic principles is both widespread and diverse. However, as we scrutinize the intricate dynamics of democratic governance, it becomes apparent that challenges persist in various corners of the world. This article sheds light on instances where democratic principles face formidable tests, prompting a critical examination of the factors contributing to what can be identified as democratic failures.

DEMOCRATIC GOVERNANCE UNDER SCRUTINY:

1. **Brazil: A Struggle Against Corruption:** The robust democracy of Brazil has encountered a formidable adversary in the form of corruption. Scandals involving high-profile officials have triggered a reevaluation of anti-corruption mechanisms, demanding a nuanced approach to fortify democratic foundations.
2. **Hungary: Navigating Institutional Changes:** Hungary grapples with a nuanced challenge - the gradual erosion of democratic institutions. Amendments to electoral laws and shifts in the judiciary's dynamics raise questions about the resilience of democratic checks and balances.
3. **Russia: Silencing Dissent:** In Russia, concerns about democracy intertwine with the suppression of opposition voices. The curbing of dissent, restrictions on independent media, and contested electoral practices underscore the delicate balance between governance and democratic ideals.

4. United States: Electoral Integrity in Question: Even in established democracies like the United States, electoral challenges persist. Issues such as gerrymandering, voter suppression, and electoral controversies prompt reflections on the vitality of American democratic institutions and the need for comprehensive electoral reforms.

5. Turkey: Safeguarding Civil Liberties: Turkey grapples with the delicate task of balancing security and individual freedoms. Instances of press freedom restrictions, limitations on free speech, and concerns about judicial independence prompt reflections on the preservation of civil liberties within the democratic framework.

7. United Kingdom: Brexit and Democratic Divides: The United Kingdom has navigated democratic challenges, particularly in the aftermath of the Brexit referendum. Divisions within society have sparked debates about the democratic process and representation in shaping significant national decisions.

6. India: Electoral Complexity and Populism: In the world's largest democracy, India, electoral complexity and challenges related to populism are at the forefront. Balancing diverse interests and ensuring equitable representation pose continuous challenges to the democratic fabric of the nation.

CONCLUSION:

Analyzing global democratic challenges urges informed discussions. Viewing these as opportunities for introspection, not obstacles, is vital. Vigilance, engagement, and international dialogue are crucial for addressing failures and strengthening democratic foundations.

This serves as an invitation for our community to delve into nuanced discussions, contributing to a profound understanding of global political dynamics. Approaching these with intellectual rigor and commitment, we, as scholars, can be catalysts for positive change, fostering a deep appreciation for democratic principles in our evolving world.

EVOLUTION OF VOTING SYSTEM IN INDIA

India's voting system has evolved significantly over the years. The country adopted universal adult suffrage when it became a republic in 1950, allowing all citizens aged 21 and above to vote initially. The voting age was later reduced to 18 in 1988. The first general elections in 1952 used the first-past-the-post system, where candidates with the highest number of votes in each constituency won seats. Over time, India introduced Electronic Voting Machines (EVMs) in the 1980s, enhancing the efficiency of the voting process.

In recent years, there has been a push for electoral reforms, and debates continue on issues like proportional representation and the first-past-the-post system's effectiveness. India's voting system remains a dynamic aspect of its democratic governance, adapting to the changing needs and demands of its diverse population.

NATIONAL VOTERS DAY – 25TH JANUARY. ORIGINATION OF VOTING SYSTEM :

The concept of voting dates back to ancient Greece, where citizens would participate in direct democracy by casting votes on various issues. Over time, different societies developed their own voting systems. Modern representative democracies, like the one in the United States, trace their origins to the Magna Carta in 1215, which laid the groundwork for representative government. The evolution of voting systems continued through the centuries, with various countries adopting different methods to ensure fair representation and participation in decision-making processes.

National Voters' Day is celebrated in India on January 25th each year. It was first observed in 2011 to commemorate the foundation day of the Election Commission of India, which was established on January 25, 1950.

The primary purpose of National Voters' Day is to encourage and promote electoral participation, especially among the youth.

SIGNIFICANCE OF NATIONAL VOTERS' DAY IN INDIA:

1. **Youth Empowerment:** The day aims to motivate young voters who have turned 18 years old to enroll in the electoral rolls and actively participate in the democratic process.
2. **Voter Education:** National Voters' Day serves as an occasion to educate citizens about the importance of voting, electoral processes, and their role in shaping the nation's future.
3. **Inclusivity:** It emphasizes the importance of inclusive and fair elections, encouraging every eligible citizen to exercise their right to vote without any discrimination.
4. **Electoral Reforms:** The day often serves as a platform to discuss and promote electoral reforms that enhance the efficiency and transparency of the electoral system.
5. **Recognition:** Outstanding contributions to the electoral process, such as the best electoral practices and innovations, are recognized and awarded on National Voters' Day.

Overall, National Voters' Day in India plays a crucial role in fostering a sense of responsibility and active citizenship among the population, emphasizing the significance of each vote in shaping the democratic fabric of the country

HAPPENINGS OF THE DEPARTMENT

SKILLS SETS FOR EFFECTIVE EMPLOYMENT

The session was organised by SAMVRUTH on 19th July 2023. This session, led by Mr. Karthik Yanamandram and Mr. Abhilash O, focused on essential skill sets and recruitment insights. Mr. Karthik emphasized resilience, problem-solving, and communication, stressing the importance of attitude and discipline. Mr. Abhilash provided practical advice on job search platforms, HR functions, and recruitment processes. The outcome empowered participants to identify necessary skills for employment, understand recruitment procedures, and grasp pre-recruitment essentials. Interactive engagement enriched the learning experience, equipping attendees with valuable insights for their future careers.

BREAK THE ANXIETY ON FPP & SFM

On 11th August 2023, Ms. Anagha Prabhu conducted a session to assist students in tackling the challenges of studying for the CMA exam, particularly focusing on Financial Planning & Performance (FPP) and Strategic Financial Management (SFM). She addressed common anxieties by providing valuable study tips. Key strategies included regular note-taking and timely review, leveraging educational videos by Mr. Varun Jain, and practicing Multiple Choice Questions (MCQs) for effective time management. Ms. Prabhu emphasized avoiding shortcuts, strategic exam planning, and daily reading habits. She also provided guidance on essay writing, encouraging students to craft professional conclusions and prioritize brevity and grammatical accuracy. Practical tips for flawless exam preparation, such as continuous mock test practice and dedicating regular study time, were highlighted. Ms. Prabhu stressed effective time management during the exam and recommended registering early for preferred exam slots. She advised taking breaks between exam parts for optimal preparation. The session concluded with an activity assessing students' understanding and commitment to improvement. Overall, Ms. Prabhu's expertise provided students with actionable strategies to excel in the CMA exam, alleviating anxiety and fostering confidence. Outcome of the event Reduced anxiety regarding FPP and SFM. Improved preparation planning for CMA. Enhanced awareness of exam strategies and dos and don'ts.

INSOLVENCY & BANKRUPTCY CODE AN OUTLOOK, PROCESS & SUCCESS STORIES

On 23rd August 2023, this session was led by CA Sandeep Kothari Partner, SSP Jain & Associates. The session provided a comprehensive understanding of the Insolvency and Bankruptcy Code (IBC) 2016, distinguishing it from conventional acts and codes. Participants grasped the nuances between insolvency, liquidation, and bankruptcy, recognizing the IBC's pivotal role in resolving financial distress. Key insights included the IBC's legislative scope, replacing outdated laws and amending over eleven statutes to streamline insolvency procedures. Emphasis was placed on creditor protection, time-bound resolutions, and the shift towards "Creditor in Control" for effective debt recovery. The session elucidated the IBC's structure, highlighting regulators like the Insolvency and Bankruptcy Board of India and adjudicating authorities like the National Company Law Tribunal. Participants gained insight into the Corporate Insolvency Resolution Process (CIRP), understanding its stages and participant roles. Success stories, such as that of Bhushan Steel Limited, illustrated the transformative impact of the IBC, showcasing how efficient resolution strategies revived financially distressed entities and fostered economic stability. In summary, participants left with a nuanced understanding of the IBC's principles, processes, and outcomes, equipped to navigate insolvency issues effectively and contribute to India's economic resilience.

ENVIRONMENTAL FIELD VISIT

On 26th Aug 2023 the educational expedition took us to the historical Gingee Fort, also known as Senji Fort, in the Villupuram District of Tamil Nadu, India. The fort is a testament to India's rich history and architectural prowess, located about 160 kilometers from Chennai. The group explored the fort's archaeological sites, including the Kalyana Mahal, a seven-storied marriage hall. The fort's fortifications, including the sacred pond Aanaikulam, a gymnasium, and the open court, showcased the fort's strategic planning. After a challenging trek to the summit, we reached the summit in approximately 1-2 hours, enjoying the breathtaking view and the cool breeze. The environmental significance of Gingee Fort is significant, as it serves as a crucial ecosystem supporting various plant and animal species. The trek allowed us to encounter local wildlife, including monkeys. The next leg of the expedition led us to a vast farmland, where we learned about groundnut cultivation, manual weed removal techniques, and sugarcane cultivation. The farmland visit underscored the importance of sustainable agricultural practices, such as the efficient use of motor hydro pumps for irrigation and the significance of organic farming. In conclusion, the educational expedition to Gingee Fort and the farmland visit highlighted the importance of sustainable agriculture practices and the need for conservation efforts.

FIRE THE FEAR OF FACING INTERVIEW

This session was organized by Samvruth on 10th and 11th of October 2023, this session provided a comprehensive understanding on the recruitment process, involves various screening processes, including Aptitude tests, Group Discussions, Personal Interviews, and Group Interviews. The Aptitude test is the first round of screening, involving multiple-choice questions that test a candidate's critical thinking ability and general knowledge. Group Discussions typically involve a case study and a specific time frame for discussion, evaluating the candidate's logical thinking and adaptability. Personal Interviews may be one-to-one or panel interviews, where the candidate's stability and attitude are observed. Technical Interviews are one-to-one, testing the candidate's basic technical knowledge for the specified job profile.

Day 2 of the Skill Training Program focused on the Aptitude Test, with Resource Person(s)

Mr. V. Dhamodharan and Mr. Parag Kapadia explaining the process to participants. Aptitude tests are challenging and can be easier if the candidate knows the tricks. Coding is another important aspect of the screening process, with types such as letter coding, number coding, and substitution coding. Algebra basics, such as ratios and proportions, are also taught to help candidates understand unknown variables. Probability is a branch of mathematics that calculates the likelihood of a specific event occurring, while measurement studies the measurement of geometric figures and their parameters. Overall, the screening process helps candidates prepare for the job and prepares them for the job.

INTRICACIES OF PGBP

This session was organized by Samvruth on 13th of October, this session provides a basics of Profit and Gains from Business and Profession. PGBP is one of the five heads of income under Income Tax law. Under PGBP, profits and gains generated from the conduct of business and profession are taxable. However, all costs are not eligible for deduction from revenue, only business expenses. As profits are solely taxable under this head of income, there is a need for audit of the taxable profit computation of the business when business turnover exceeds the specified limit. Section 44AB of the Income Tax Act, 1961 outlines the requirements for auditing of accounts of certain persons carrying on business and profession. The assessee must have their books of accounts audited if they have aggregate receipts and payments in cash greater than 5% of total receipts and payments, total sales, turnover, or gross receipts in business greater than 1 Crore, or if they have aggregate receipts and payments in cash less than or equal to 5% of total receipts and payments and total sales, turnover, or gross receipts in business greater than 10 Crore. Eligible assesseees who have opted for presumptive income schemes (i.e., lower than 6% or 8% of total turnover) must have their books of accounts audited by a Chartered Accountant to declare lower profits. Assesseees engaged in professions with gross receipts greater than 50 Lakhs must maintain their books of accounts and must declare lower profits as income.

BIG FIVE – ETHICAL ENTREPRENEURSHIP

The BIG 5 Seminar, "Ethical Entrepreneurship," hosted by "SAMVRUTH," a student forum of the Department of Commerce [Honours], spanned two enlightening days on October 16th and 17th, 2023. The event featured esteemed speakers from diverse entrepreneurial backgrounds, offering invaluable insights to budding entrepreneurs. Day 1 began with Mr. Vimal Thiagarajan's illuminating session on ethics in entrepreneurship, emphasizing customer care. Mr. R.S. Venkateshwaran followed, highlighting ethical content marketing's importance in the digital age. Mr. Varun Agarwal discussed ethics in professional life, showcasing the critical role of consultants in upholding ethical standards.

Day 2 featured Mrs. Sangeetha Arunachalam, who stressed ethical conduct's importance for holistic service providers like Kadaiveedhi. Ms. Boomigha (Student of B.com Honours) shared about her startup business and Mr. Kunal (Student of B.com Honours) thoroughly explained about his stock investment and cleared doubts of the participants. Finally, Mr. Rupesh Karthikeyan (Student of B.com Honours) shared his inspiring journey from student to entrepreneur, emphasizing genuine care for products and customers in his venture, "Coffee Daddy." The event fostered understanding of ethical business practices, inspiring confidence and networking opportunities for attendees. It underscored ethics' integral role in entrepreneurship, encouraging aspiring entrepreneurs to embark on their ventures ethically and confidently.

INTELLECTUAL PROPERTY RIGHTS

The NIPAM Workshop on IPR Awareness, hosted by the Department of Commerce (Honours), attracted 124 participants, including students and faculty members. Led by Ms. Jaba Chakraborty, the workshop aimed to enlighten attendees on Intellectual Property Rights (IPR). Ms. Chakraborty provided an extensive overview of IPs, emphasizing their significance for academic and career advancement. She covered copyrights, trademarks, and patents, detailing their handling procedures and benefits of registration. Participants expressed appreciation for the workshop, acknowledging its value in enhancing awareness and understanding of protecting intellectual creations.

INTRA-DEPARTMENT SPORTS MEET

On September 15, 2023, aimed at enhancing students' sportsmanship, talents, physical fitness, and mental acuity. The event, overseen by faculty coordinators and student leaders, featured three indoor activities (Chess, Badminton, and Carrom) and two outdoor sports (Kabaddi for boys and Throwball for girls). Indoor tournaments employed various formats, including a Swiss system for Chess and knockout rounds for Carrom and Badminton. Outdoor games followed knockout formats with Kabaddi for boys and Throwball for girls. The competitions not only promoted physical fitness but also fostered teamwork, sportsmanship, and social skills among participants. Winners were determined based on points accumulated through fair and competitive matches. Prize winners of this event were attached in the page no. 13,14, The event's outcomes included improved fitness levels, cognitive abilities, social skills, reduced stress, increased self-confidence, and overall mental well-being for participants.

WORKSHOP ON ADVANCED EXCEL

The Three day (22.12.2023, 26.12.2023, 28.12.2023) advance Excel Workshop offered participants a comprehensive understanding of various functions and features within Excel, enhancing their proficiency in data manipulation and analysis. Through hands-on learning, attendees were introduced to essential functions like Fill Series, Paste Special, Conditional Formatting, and Data Validation, empowering them to efficiently manage and analyze data sets. Moreover, they gained insights into common errors in Excel and learned techniques to mitigate them, ensuring data accuracy and reliability. The workshop also delved into advanced functions such as Goal Seek in What-if Analysis, equipping students with the skills to perform predictive analysis and scenario modeling effectively. A highlight of the workshop was the introduction to advanced Excel features like Flash Fill and Pivot Tables. In reality, proficiency in Excel and its advanced features is increasingly sought after across industries. From finance to marketing, human resources to operations, Excel proficiency is a foundational skill that enables professionals to efficiently manage, analyze, and visualize data, driving informed decision-making and organizational success. Mastery of Excel functions and features not only enhances individual productivity but also contributes to organizational efficiency and competitiveness in today's data-driven business landscape. Thus, the insights gained from the Excel workshop are not only valuable for individual skill development but also hold significant implications for professional success and organizational performance.

The event organized by the Students Social Responsibility group on 19/07/2023, aimed to aid the homeless in Koyambedu, Arumbakkam, and other areas with nutritious meals. Volunteers prepared diverse dishes and distributed them across various locations, engaging with recipients to offer support and empathy. The event significantly impacted the homeless community, fostering a sense of care and unity. It raised awareness about homelessness and the necessity of collective efforts in tackling social disparities. "Anbunavu" exemplified the power of community engagement in addressing pressing societal issues, providing immediate relief and promoting long-term change.

ANBURAVU

On July 29, 2023, the B.com Honours Students Social Responsibility team organized an event at Nalmanam Orphanage. The event featured games, educational workshops, and a donation drive, bringing joy and support to the children. Feedback was overwhelmingly positive, with both students and children expressing gratitude. "ANBURAVU" highlighted the significance of social responsibility and community engagement, leaving a lasting impact on all involved.

A Day With Frontier Workers

The SSR Team extended their efforts by honoring Frontline Workers in Arumbakkam/Anna Nagar and Koyambedu. Interacting with them shed light on their daily struggles and reinforced appreciation for their hard work. In Koyambedu, workers like Ms. Annammal and Ms. Rani shared their stories, highlighting the challenges they face for sustenance. Similarly, visits to construction sites in Arumbakkam/Anna Nagar underscored the perseverance of workers despite adverse conditions. Providing Tea and Biscuits symbolized gratitude for their dedication. This activity enriched the team's understanding of resilience and left lasting impressions of gratitude and admiration.

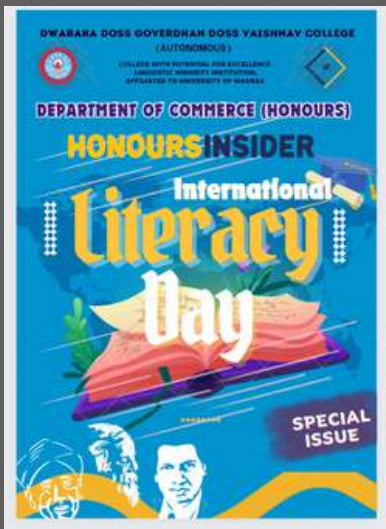

SPECIAL ISSUES

LITERACY DAY

DAY 1 - The Department of Commerce [Honours] visited Mugalivakkam Government High School on 7 September 2023 on the occasion of International Literacy Day. It covered kids of 9th and 10th graders between 11 am and 12.30 pm. The event intended to educate the young people. The whole activity was split into Four sessions, each of which was tasked with offering a variety of insights including education, communication and future opportunities. Games and activities were also arranged. The department head began by narrating to the pupils a tale about a farmer and stressing the value of communication and education for students in their age group.

The first session concentrated on the importance of education and its role in students' future, by exploring Five Thirukkural (An Ancient text written by Thiruvalluvar). The second session broadly focuses on the Principles of effective communication in order to avoid misunderstandings and misleading of one's communication. The school kids been practically illustrated on usage of words and formulation of a Formal statement.

Eftsoons, various activities and games were conducted to the kids on building communication, remembrance, reproduction and speedy calculations. Pamphlets have been issued to the school kids highlighting the career opportunities in the field of Arts, Humanities, Science, Engineering, Medicines etc. It also contains the details of Government jobs available to the Citizen at each level of their education.

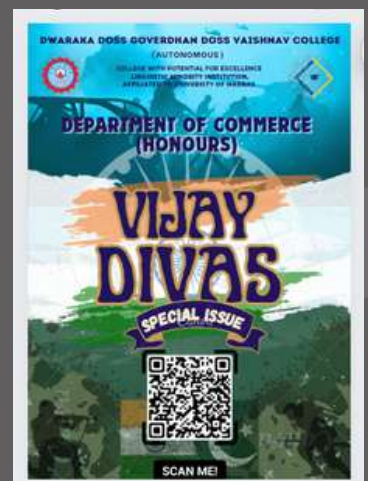

DAY 2 - As Aristotle once said, "The fruit of education is sweet, but the roots are bitter." Accordingly, Kindergarten is the starting point for education. Learning has no age restrictions. However, this is just a first step towards learning. In this regard the Department celebrated the International Literacy Day march by visiting a Government owned Kindergarten at Arumbakkam on 9 September 2023.

All of the faculty members and volunteers entertained the children by teaching them games and rhymes, among other things. The kindergarten visit for literacy day yielded positive outcomes, including heightened enthusiasm for reading among the children. Interactive activities, storytelling sessions and engaging kids contributed to fostering a love for literacy.

VIJAY DIWAS

On 28th December 2023, the Honours Insider commemorated Vijay Diwas by releasing its Special Issue containing the History of Indo - Pak war 1971, Economic Performance of Bangladesh during past decades, Honouring the Warriors of 1971 War, Vijay Diwas Celebration 2023 etc.,. The copy of this issue posted to Honourable President and Defence Secretary.

ALUMINI TALK

I have completed B.Com honours and it is one of the best courses in our college. The course contains internship programs which help us to gain real-world experience and develop essential skills required for our future careers.

Faculty members in our college are good. They help us grow and interact with them in a friendly way which helps us have much better personality development. The college offers many courses, but it is well-known for commerce as it has the best curriculum.

To be frank, I can proudly say that I am a Dgvcian.

TRIVIA TIME

1. What has keys but can't open locks, and speaks volumes without words, revealing the disparities in society?
2. I am taken from you, and yet I am with you every day. I am the result of historical injustices and discrimination. What am I?
3. What comes once in a moment, but never in a thousand years? It symbolizes the urgency for social change.
4. I am a barrier that divides, yet my removal fosters unity. What am I, standing as a metaphor for breaking down social barriers?
5. I can be shared but never owned, often denied to those who need it most. What am I?
6. I am measured in moments of silence but weigh heavily on the scales of justice. What am I?
7. What begins and has no end, highlighting the continuous struggle for human rights?
8. I can be broken without being touched, representing the fragility of societal harmony. What am I?
9. I am a paradox - loud in silence, invisible yet omnipresent. What am I, pointing to the existence of systemic issues?
10. I am a bridge between ignorance and understanding, essential for dismantling stereotypes and biases. What am I?

STUDENTS CONTRIBUTION

VOTE IS G.O.A.T: THE UNPRECEDENTED IMPACT OF VOTES IN THE CONTEMPORARY WORLD.

In shaping a nation's destiny, the vote emerges as the undisputed Greatest of All Time (GOAT). A single ballot, seemingly inconspicuous, possesses the unmatched power to shape the economic, political, and diplomatic fate of a nation. Hence, it is important to explore the multifaceted impact of the vote on a nation's prosperity, stability, and global standing, underscoring the significance of active civic participation in the democratic process.

Elections serve as a critical juncture where citizens exercise their right to influence economic policies. The outcome of the vote determines the management of economic resources, fiscal policies, and the overall direction of economic development. A well-informed electorate can usher in leaders with visionary economic plans, spurring growth, innovation, and job creation.

Conversely, an ill-informed or apathetic electorate may elect leaders with detrimental economic policies, leading to stagnation, inflation, and unemployment. The vote, therefore, stands as a potent tool to either fortify or undermine a nation's economic foundation.

The vote is the cornerstone of democratic stability, ensuring the peaceful transfer of power and the continuity of governance. A smooth electoral process fosters confidence in the democratic system, providing citizens with the assurance that their voices are heard and respected. Conversely, a contentious or flawed election can sow seeds of discord, destabilizing the social fabric and impeding progress.

The vote not only determines the leadership but also influences the quality of governance. Informed voting choices can result in the election of leaders with the capacity to navigate complex challenges, promote inclusivity, and uphold the rule of law, thereby enhancing the overall stability of the nation.

In an interconnected world, the vote has far-reaching consequences beyond national borders. Elected leaders become ambassadors of their nations, shaping foreign policy, and fostering international relations. A well-chosen leader can enhance a nation's reputation on the global stage, paving the way for collaborative efforts, trade agreements, and diplomatic alliances.

Conversely, a misguided electoral choice can strain relations with other nations, jeopardizing diplomatic ties and hindering collaborative efforts on global issues such as climate change, security, and health crises. The vote, in its quirky way, moonwalks onto the stage of international diplomacy, becoming the unexpected breakdance move that leaves the other nations wondering. One must never fail to understand the fact their vote is not just theirs, but it echoes the dreams and struggles of the past, would one carry the baton or giveaway the legacy? It also serves as a tribute to those who fought for their right to vote and a promise to those yet to come that their aspirations will be heard. In the theatre of democracy, your vote is the spotlight, the leading role and the standing ovation. So, its high time to step onto the stage and make a mark in the saga of civic duty and responsibility.

The vote, indeed, stands as the singular force capable of shaping the destiny of a nation, making it the Greatest of All Time in the arena of civic influence.

THE POWER OF VOTING: UPHOLDING JUSTICE THROUGH THE RIGHT TO VOTE

Introduction:

In the carpet contest of democracy, the main bond that binds citizens to the government is the right to vote. Voting goes far beyond civic responsibility; It is a pillar of maintaining the nature of a democratic society. The complexities of today's world reflect the increasing need to recognize and protect the importance of this right.

The basis of democracy:

The basis of democracy is the participation of citizens in voting, which is the basis of all democratic rules. Individuals who exercise their right to vote form a coalition that determines policy and directs the country's culture. It becomes the most powerful tool that motivates people to influence the course of society.

Insert:

The true expression of democratic principles requires the right of all eligible citizens to vote. It is important to remove obstacles to the participation of some groups in the election process. Through competition, democratic institutions are strengthened and everyone's voice is ensured, regardless of race, gender, socioeconomic status, or other differences.

Democracy Champions:

The right to vote goes beyond the right to vote; These are rights that must be carefully protected by governments and their citizens. This role requires a legal basis, public education, and constant vigilance to avoid the influence of the foundations of democracy.

Challenges and solutions:

In our ever-changing world, new challenges to voting rights require protection. From technological developments to changes in politics, solving these problems is important. Ensuring the security and validity of elections, combating misinformation, and ensuring fair representation are vital to maintaining a fair voting system.

Conclusion:

Voting is a great testament to the strength and importance of a democratic society. It goes beyond the law; It is the responsibility that binds citizens to the fate of their country. When we passionately embrace the cause of voting rights, we strengthen the meaning of freedom and ensure that the fire of freedom burns for generations .

Democracy:

To make decisions on our behalf, we have to vote to elect representatives who will represent our values, interests and priorities in Government.

Liability:

Voting helps hold elected officials liable for their actions. As the politicians rely on the support of the voters, they are more likely responsive to the needs and demands of their constituents.

Historical Hardships:

Many Individuals and communities have fought for the right to Vote throughout History. People have faced many hardships to protect this Democratic right. People honor their struggles and contribute to a legacy of democracy by exercising their right to vote.

Redressal Of Local Issues:

Voting In local elections directly impacts the community where you live. Local officials make decisions that affect education, public safety, infrastructure and issues that directly impact your daily life. People can help shape the development and quality of your own society by participating in local elections.

Influence on Policy:

Various decisions on a wide range of issues, including healthcare, education, the economy, social justice and the environment are made by the elected officials. Voting can help you influence the laws and policies that will directly impact your life and others in your community.

Equality :

There is No discrimination in Voting such as socioeconomic background, race, gender or any other characteristic. Everyone has an Equal Voice In Voting. Anyone can participate in Decision making Processes and Have their Perspectives represented.

What is vote? THE POWER OF VOTE

It is the only thing which has big impact by a small act. In the complicated dance of democracy, vote is like a pebble that creates ripples across the pond of the future. Voting is not just the duty of the people; it's a light of change. Vote is the voice that echoes in the corridors of power, demanding attention and driving progress. Voting is the only way by which the people of a democratic country can select their leader who will in turn do their service with full dedication to the people.

Importance of One Vote:

The importance of one vote cannot be exaggerated in a democracy. Each person's vote is like a constructing block, together forming the foundation of the nation. One vote can have an effect on election results, shaping policies and leadership. It represents the energy of people to make a contribution to the collective will of the people, stressing equality regardless of background or status.

Whom to Vote?

Voting for the right individual is an important obligation. It requires cautious consideration of a politician's values, past movements, and front-line guarantees. By polling for the right man or woman, you assist choose leaders who will definitely serve the people. Your vote is an effective tool for endorsing politicians with integrity, competence, and a dedication to high quality change in society.

In end, vote casting is not just a one-time act; it's a collective expression of values and the pulse of a thriving democracy. Every vote, like a ripple, contributes to shaping the country's destiny. It holds the electricity to choose successful leaders and empower the nicely-being of society. Voting is an investment inside the future for a better society and a commitment to the democratic manner.

விரலின் மையில்

குடவோலை போய்

குடியரசு வந்தது.....

அரசன் போய்

அமைச்சரும், ஆளுநரும் வந்தனர்

அடிமை போய்

உரிமை வந்தது.....

உரிமை விரலின்

நுனியில் வந்தது....

நாளை நாட்டை

ஆள போகிறவன்

யார் என தேர்ந்தது...

ஒற்றை விரலின் மையில்!

In the heart of democracy's call,
A duty echoes, one for all.
Through ballots cast, a voice resounds,
In choices made, our fate surrounds.

The chorus of ballots, a symphony of might,
Each vote a brushstroke, painting the right.
An act profound, a civic duty,
Fueling the flame of justice, pure and true.

So stand tall, let your voice ring,
In the act of voting, let freedom sing.
For a nation's heartbeat, in ballots resides,
The pulse of change, where hope abides.
