About the College:

Dwaraka Doss Goverdhan Doss Vaishnav College, a linguistic minority institution was established in the year 1964. The munificence of Late. Shri.Jumna Doss and Late. Shri.Amichand Doss in donating a vast extent of land led to the establishment of this college. The Vallabhacharya Vidhya Sabha was founded in 1963 by them and the good-hearted, like-minded people of the city's Gujarati and Rajasthani communities with the express goal of providing high-quality, value-based education to everyone. For more than 50 years, the college has served as a refuge for generations of eager students. Its infrastructure, together with cutting-edge machinery and technology, has grown astronomically. In order to meet the unique demands of the student body and keep up with the evolving trends in the various academic fields of the arts, business, science, technology, and management studies, the curriculum is periodically reviewed and revised. The programs' multidisciplinary nature has resulted in skill development and guaranteed industry-academia collaboration. The institution is now recognized as the pinnacle of quality in higher education due to the students' outstanding performance in extracurricular, curricular, and extension activities.

About Research Development Cell (RDC):

The **Vision** of RDC is to meet the unique demands of the student body and keep up with the evolving trends in the various academic fields of the arts, business, science, technology, and management studies. The RDC aims to foster a vibrant research ecosystem that empowers faculties and students to pursue innovative and impactful research.

The **Mission** is to support and encourage academicians, research scholars and students to publish their work in peer reviewed, reputed high impact journals.

The **Motto** is to create a conducive atmosphere for faculty and students for participating in conferences, seminars, workshops, and symposiums in order to expand their knowledge and continue conducting high-quality research that contributes to nation-building, which could result in the socio-economic and scientific advancement of the country.
