ABOUT THE DEPARTMENT

The PG Department of Computer Science, established in 1996, aims to provide a conducive environment for learning career-oriented subjects aligned with evolving industry trends. The curriculum is regularly updated to meet industry standards and focuses on key areas such as Python programming, Data Analytics, and Cloud Computing.

As a special feature, the department organizes HackForge, a 24-hour national-level hackathon, and has signed an MoU with Denodo, enabling students to participate in university-level challenges.

The department also has a tie-up with IIT Bombay for the Spoken Tutorial Project, providing exposure to modern tools and technologies. With dedicated faculty and a focus on academic excellence, the department nurtures creative, skilled, and industry-ready graduates.

VISION

- To create a conducive learning environment in Computer Science and Information Technology, while developing graduates with strong ethical and moral values.
- To equip students with advanced knowledge and nurture globally competent graduates with strong intellectual, analytical, and practical skills.

MISSION

- To upgrade knowledge in Computer Science and Information Technology through the latest technologies, while encouraging students to think independently and develop software systems based on strong theoretical and practical skills.
- To build a foundation of research-oriented thinking among students and enhance their employability.

CERTIFICATE COURSES

- NPTEL courses help students explore new areas of interest and provide opportunities to learn in depth, enabling them to master subjects at their own pace.

- The department has a tie-up with IIT Bombay and offers certificate courses, with students undertaking one course per semester.
- The Spoken Tutorial program enhances students' employability and prepares them for challenging interviews and professional work environments.

VALUE ADDED COURSES

- Artificial Intelligence and High-Performance Computing
- Prompt Engineering
- Advance excel with data visualization and power BI
- Data science with python
