Process Manual for Slow Learners and Advanced Learners (Identification & Activities)

This policy paper is recognized as the “Policy on Advanced and Slow Learners” of Dwaraka Doss Goverdhan Doss Vaishnav College. Through this policy the college pronounces its assurance to the dynamic facilitation and prop up to the advanced learners to be excellent achievers and slow learners to be better performing and achieving students in the academic and personal life. The policy also persuades the teaching departments to develop significant strategies and scientific implementations to benefit both the advanced learners and slow learners

The Concept:

In a classroom environment faculty have to deal with different types of students; the intelligent who learn very fast and the weak who learn very slowly. Therefore, it is essential to determine the abilities of the students in the class. Based on the ability determined, some students need only guidance and some students need rigorous work and regular attention.

Advanced Learners:

The term advanced learner in this policy refers to the students who can engage learning activities faster than the other students in the class and achieve high scores and make significant achievements in their life. They are more potential with their comprehension, retention, memory, critical thinking, creativity and contextualization practices. They also may have hard working behaviors and usually achieve more than the majority of the classmates. These students are in a great extend gifted and talented than the others in the class. These students can take up higher level learning and academic responsibilities. They can bring some new concepts, strategies, and also can take the leadership in the teaching learning activities.

Slow Learners:

The slow learners are always the poor achievers and lag behind with the academic life. They may fail in exams or will score only poor grades. They will find it difficult to understand the lessons and may have difficulties in their comprehension, retention, reproduction and integration. They may fail in articulations and critical reflections. Their motivation levels also may be poor and may find it difficult to adjust with the teaching learning process and can drop out or fail in the programme. The poor performance may not be a sign of the poor capacity or talent but may be due to inappropriate teaching methods, poor family situations, inadequate motivations and supports, unscientific learning practices or even the inability to converse in an unfamiliar language

On the basis of their preceding exam performance, current subject performance , class observation, and learning speed, students can be classified in two groups; advanced learners and slow learners. Each type of students have different learning attitudes and learning habits. A faculty has to adapt a teaching methodology such that he/she may not lose the attention of the slow learners and turn off the advanced learners.

The purpose of assessment of the learning levels of the students and conduction of activities for them is

- Identification of the slow learners and advanced learners in the class.
- To ensure that slow learners and advanced learners are taken care as per their needs.
- To help them improve their academics and career prospects.

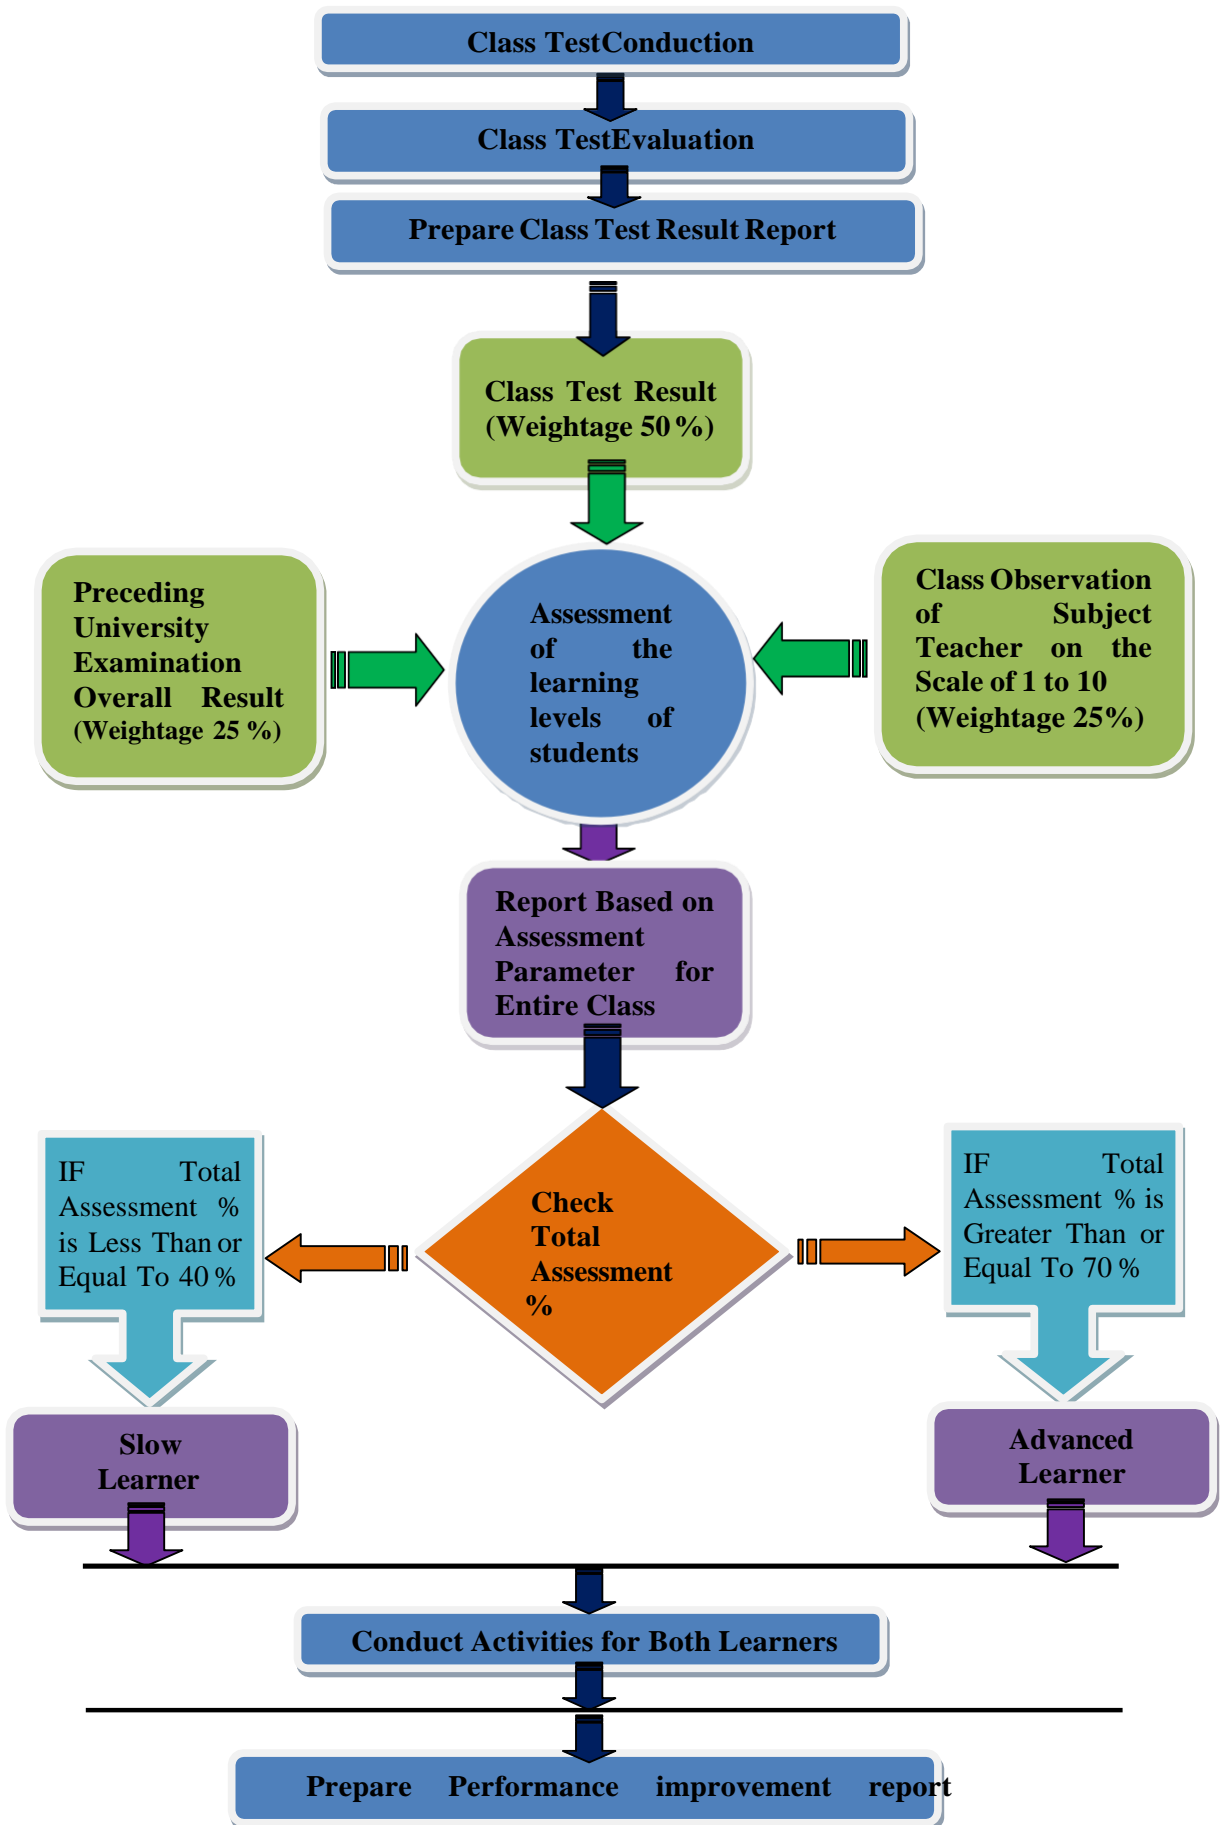

This manual describes the constituent parts of the slow learner and advanced learner identification process and activities for them and includes guidance on process.

Process Input:

- To start the identification of slow and advanced learner process ,the following inputs are required Overall result of the preceding examination.
- Class test result.
- Class observation by subject teacher

Process to identify Slow learners and Advanced Learners:

- The process of assessment of the learning levels of the students and conduction of activities for them should be carried out through a systematic procedure as shown in the flow chart and explained in detail as below:

Process of Slow Learner and Advanced Lerner

1. Assessment of the learning levels of the students:

- Slow learner and advanced learners would be identified for **each subject** separately by respective subject teacher for **all the semesters**.
- Process to identify of slow learners and advanced learners would be conducted immediately after declaration of preceding semester university exam result or after one month of teaching in case of freshers (SEM I).
- Every subject teacher should conduct class test / online objective type test of their subject on syllabus covered till date or on first unit for 20 marks and duration of one hour to identify slow learners and advanced learners.
- Slow and advanced learners are identified based on following parameters and their weightage.

Sr. No.	Parameter	Weightage in Percentage
1	Marks obtained by student in objective type test /class test / unit test conducted for respective subject	50%
2	Academic performance of students in preceding university Examination	25%
3	Subject teacher observation	25%

- For parameter no. 3 every subject teacher should assess each student on scale of 1 to 10.
- Based on above parameter a report would be prepared for whole class for total 100%.
- The student securing marks below 40% would be identified as Slow Learners and the student securing marks above 70 % would be identified as Advanced Learners.
- After that separate list are prepared for both type of learners for further monitoring and conduction of problem-solving sessions /revision sessions for them.

1. Activities for Slow learners:

- Provisions should be made in the academic planner to conduct problem solving sessions /revision sessions/extra sessions to the slow learners which could be considered as remedial coaching program (RCP)
- Make up classes and practical sessions should be conducted for Direct Second Year (DSE) Students to complete the syllabus within time.
- Personal Attention should be provided by respective subject teacher in teaching Assignments and solving ESE question papers could be done periodically Question bank - DiscussionCounselling – special hints and techniques

Activities conducted for Slow Learners

1. Activities for Advanced learners

- Advanced assignments or tasks should be assigned to advanced learners Encouragement to complete NPTEL/Advanced courses.
- Encouragement to Participate in Seminars/Conferences/Technical Events Assignment based on Model making/building.
- Industrial visits and industry sponsored internships.
- Platform should be provided through MoU's with various reputed Industries/ Research institute for the advanced learners to explore their talents.

Activities conducted for Adv. Learner

Roles and Responsibilities of Course Teacher:

Course Teacher is responsible for carrying out different aspects of slow learner and advanced learner identification and activities to be conducted

Course Teachers will be responsible for:

- Conducting class test on unit 1 of 20 marks and duration of one hour.
- Evaluation of class test answer sheets.
- Preparing and maintaining report for whole class based on parameter decided for assessment of the learning levels of the students with their weightage.
- Preparing separate list of slow and advanced learners.
- Preparing schedule for extra sessions / problem solving sessions / revision sessions for slow learners.
